DOLPHIN ENCOUNTERS

The encounter of a lifetime... Snorkel with friendly wild Atlantic Spotted Dolphins in the Bahamas on a 7-day Dolphin Expedition.

Dolphins are fun loving sea mammals that are intelligent and playful. The Spotted Dolphins are the friendliest in the world and love to swim eye to eye with humans.

These dolphins are completely wild, no cages, feeding or training. It is absolutely amazing to swim next to a wild dolphin and know they are there because they like people.

Naturalist and Captain Scott Smith leads an ongoing identification and encounter-based research project that has resulted in over 100 individual dolphins photographed and identified.

Swimming with dolphins is snorkeling only and we are happy to teach you how.

Your 86-foot home away from home is the *M/V Dolphin Dream*, designed with your safety and comfort in mind. She has 6 spacious double occupancy cabins accommodating small groups of 12 or less.

She is a heavy stable boat with a low dive deck for easy access to the water. Large and comfortable salon with plenty of room for cameras and computers. Large back deck with a camera table and benches.

You will enjoy outstanding home-style cooking and an informal lifestyle with simple relaxation.
